

Help Improve Your School & Education Staff!

These presentations will motivate and inspire your entire education staff.

“This was very informative and we came away with valuable and relevant information, resources, and activities.”
High School Science Teacher

All attendees will receive action plans/activities that will stimulate creativity.

“As the teachers, we are in the trenches everyday. Finally, a workshop that understands what we go through daily!”
High School Teacher

Educational Impact begins with one school at a time!

“Some professional development days I wish I could have stayed in my classroom grading papers. This is one presentation I am very glad I attended.”
High School Teacher

Presentations
that Inspire the
Creativity in All
Educators!**

Why Should I Host an Professional Development Workshop?

- Teaching Staff and Administration will benefit from the latest local, national, and international education information.
- How many workshop “experts” have ever spent an entire day in a real classroom with today’s students? Schedule a workshop presented by true experts who have over forty years of combined experience with REAL students—urban youth, suburban youth, and college students.
- No book or “Ivory Tower Theory” can replace true classroom experience with today’s students.
- School administrators recognize the importance of staff training and staff morale. N.E.S.E.C. Workshops provide the latest strategies to help your staff thrive.
- State and National education standards come to life in these multimedia workshops!
- How do you really improve your staff and at the same time motivate and inspire your students to improve? Host a professional development workshop and find out!

Customize & Choose your Workshop!

All Professional Development Workshops include comprehensive coverage of one of the topics below. Importantly, these topics are covered using a combination of the most up-to-date information from research journals and real-world experience. Emphasis is placed on how these topics directly impact your attendees’ instruction!

- **Organization, Creativity, and Teaching Strategies for Today’s Learners!** All educators know today’s learners offer unique challenges to the profession. Let our real-world strategies transform your classrooms into dynamic learning centers.
- **Classroom Management & NESEC Discipline!** Our unique program can immediately improve the relationships and the atmosphere for a classroom, a school, or an entire school system.
- **Block Scheduling, Traditional Sceduling, and Creative Scheduling!** Learn how changing your schedule can improve staff morale, improve attendance, and increase student performance. We help alleviate staff apprehension and fear.
- **Large to Small School Transition: How to avoid the pitfalls!** Learn from two educators who were on the school design team, and who have actually taught during the transition from a large urban school to five unique small schools.
- **Project-Based Science, Science Fairs & Science Exposition!** Learn from educators who have true experience organizing and guiding students in award winning science projects. Let us show you how to involve the community and allow students to compete at the highest levels and win!
- **Science Teaching Strategies & Hands-On Activities!** Two of the most inspiring science presenters show you how to bring science to life in your classroom. Learn how to improve scores, become science stewards, & generate excitement using the latest research and activities!
- **Multimedia and Hollywood in the Science Classroom!** Learners of today are influenced by Hollywood productions. Put the good of Hollywood to use in your classroom and watch student interest and performance improve dramatically!
- **Japan’s Education System – Adopting What Works!** Let our experts show your staff why Japan’s education system excels and how you can benefit by adopting their best practices!
